

MAINTENANCE

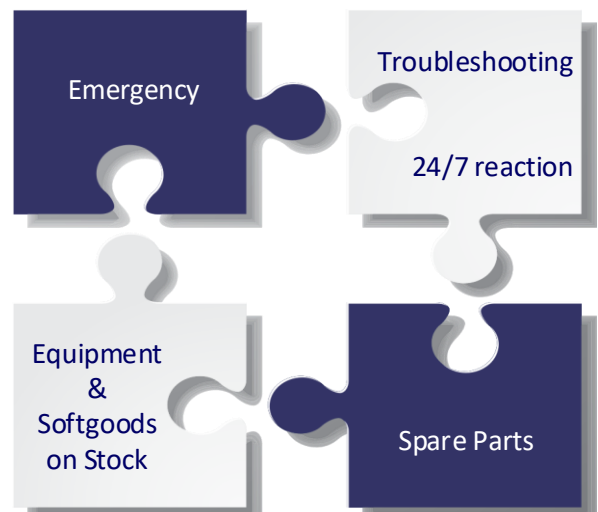

Offshore  Onshore

We supply maintenance and emergency repairs for gascarrier and onshore plants for decades. Our engineers and technicians are very experienced in the field so that we are able to support and solve upcoming problems focussing time and quality. We're officially certified for Fukui Seisakusho (FKI) and many other well-known and established makers.

In addition to our technical experience we stock all kind of softgoods and cryogenic valves & materials to support our technicians and engineers with spareparts needed on site.

To complete our full service we provide a 24/7 emergency hotline to react directly on Customers demand.

...we serve for your safety!
