

SPARE PARTS

We all know that we face leakage or failure problems on the most impracticable point and time.

Due to this fact we provide a 24/7 service to support our customers directly when support is needed.

Common and uncommon demands can be provided on short term basis as we are in constant contact to different makers.

Due to our high-level stock and our worldwide network we are in the position to provide our customers genuine spare parts or fitting alternatives to solve any demand.

Regular spare parts supply, replacements or emergency supports - we know the needs and will guarantee our very best to solve any upcoming spare part-problem.

...we serve for your safety!
